About Some Projects

MuchCalendar: platform to manage the booking of classes and training sessions (IED Madrid)

Musicality: a mobile platform to bring together music students and teachers. Available on AppStore and PlayStore

Muki: open-source code generation tool for integrating iOS and JEE applications through RESTful services. Available on GitHub

Directorate General For The Regulation Of Gambling (Spain): my team designed and built a web-service platform for the public administration sector and used by online casino companies

Ministry of Education (Spain): my team designed and built the architecture of the platform for the European Social Fund
